

## Smiling Is Infectious

Author Unknown

Smiling is infectious; you catch it like you catch the flu.  
When someone smiled at me today, I started smiling too.

I passed around the corner, someone saw my grin,  
When he smiled, I realized I'd passed it on to him.

I thought about that smile, and I realized its worth,  
A single smile, just mine, could travel around the earth.

So, if you feel a smile begin, don't leave it undetected,  
Let's start an epidemic, and get the world infected!
